

biology of reproduction

VOLUME 12 NUMBER 1
FEBRUARY 1975

contents

WILLIAM A. WIMSATT. Some Comparative Aspects of Implantation	1
SANDRA SCHLAFKE and ALLEN C. ENDERS. Cellular Basis of Interaction Between Trophoblast and Uterus at Implantation	41
R. G. WALES. Maturation of the Mammalian Embryo: Biochemical Aspects	66
CHARLES J. EPSTEIN. Gene Expression and Macromolecular Synthesis During Preimplantation Embryonic Development	82
J. M. YOCHIM. Development of the Progestational Uterus: Metabolic Aspects	106
WILLIAM T. SCHRADER, SHARON S. HEUER and BERT W. O'MALLEY. Progesterone Receptors of Chick Oviduct: Identification of 6S Receptor Dimers	134
GORDON W. DUNCAN AND ROBERT G. WHEELER. Pharmacological and Mechanical Control of Implantation	143
ALAN E. BEER, R. E. BILLINGHAM AND JAMES R. SCOTT. Immunogenetic Aspects of Implantation, Placentation and Feto-Placental Growth Rates	176
